TUTT'S MANUAL OF USEFUL RECEIPTS

We believe that there is a large class of patent medicines, the ingredients of which are skillfully and conspicuously selected and compounded, and that they have been very useful. We must come to a conclusion in precisely the same manner as we do in the case of the reputation of a physician—by what he accomplishes, and by the testimony of those who have used the medicine. The reputation of a patent medicine is sustained by exactly the same evidence that supports a successful physician's reputation. Do many of these medicines come out of a regular practice, and were prepared originally prescribed by the best physicians? Very few of them, we believe, are blemishes and frauds in the business or the industry of the country.

The people who are peevishly judges, both of doctors and of medicines, say that these medicines are "quackery, and it takes a long memory for anything, that fact is established—*Scribner's Monthly.*

—Western Star Lodge No. 14, F. and A. M., meet in Masonic hall this evening.

—There will be a regular meeting of Oriental Lodge No. 22, K. P., this evening at eight o'clock.

—Janesville City Lodge No. 90, I. O. O. F., occupy Odd Fellows hall this evening in regular meeting.

—Mr. W. T. Vankirk has received a carload of splendid watermelons from Posey county, Indiana. They are extra fine melons.

—The Bower City band concert on the corn exchange square, will be given on Thursday evening of this week. Instead of Wednesday evening, as heretofore.

—Ye old time Merry club will hold a social on Friday evening of this week. Every member of any of the former merry clubs is invited to be present, Anderson's orchestra will furnish the music.

—The store fronts of Messrs. Stearns & Baker and C. S. Burnham, in the Macdon block, corner of West Milwaukee and Franklin streets, are being treated to a new coat of paint, which adds much to their appearance.

—Miss Lou Merrill, daughter of Mr. and Mrs. Hiram Merrill, and Miss Mary Colvin, daughter of Mr. and Mrs. R. L. Colvin, who have been spending their summer vacation in this city with their parents, will return to their studies in St. Mary's institute, Milwaukee, on Thursday of this week.

—Barnum's greatest show on earth, has monopolized all the bill boards in the city, besides numerous extra boards put up for the accommodation of the mammoth Jumbo posters. Barnum's paste brigade has hung up more paper than any show which has heretofore visited this city—the town is to be covered up with his show bills, and more coming.

—Among the passengers on the steamer John Komer, which came near being wrecked in a severe storm a few days ago, off Long Island, were Judge J. B. Cassaday, wife and daughter, and Mrs. G. M. Hancock, of this city. Had it not been for the steamer Rose Standish, who went to the relief of the Komer, the loss of life would doubtless have been great.

—The following from the St. Paul Pioneer Press shows how one of our former fellow-townsmen is prospering in that city: "H. M. Hart, who has just completed a block of three dwellings on Western avenue, has decided to build a similar block on the opposite side of the avenue; and has recently purchased a sight on Summit avenue adjoining Colonel Bend's residence, where he will begin the erection of a mansion this month."

—By the resignation of Chief Engineer Croft, of the fire department, the duties of that office will now fall upon Mr. James Foster, the first assistant engineer. Mr. Foster has proved himself to be one of the best men for the position in the city, and takes great pains in keeping the department up in efficiency, and when the members are called together to recommend Mr. Croft's successor to the council, Mr. Foster will no doubt be their unanimous choice. Business duties compelled Chief Croft to give up the position to which he had but recently been elected and in which he was a popular officer.

Another Grand-Look Out for Him

The Oconomowoc Local of a recent date says, a few weeks ago, a smooth talking young man circulated about the town soliciting subscriptions to a circulating library he was about to establish, which would contain the standard work of history, fiction, etc. Having enlisted one of the leading clergymen in the cause, he succeeded in gathering in fifty or sixty dollars in one dollar subscriptions to the library. In due time the books arrived, and then there was something of a surprise in store for the confiding subscribers. The "library" was found to be composed of ten-cent editions of the volumes so elaborately described by the advance agent, and three dollars would have bought the whole outfit.

The Board of Education.

An adjourned meeting of the board of education was held in the city clerk's office last evening at which all the commissioners were present except Com. Rager.

The standing rule requiring all intermediate and primary pupils to attend school in the district in which they reside, was ordered enforced.

A committee on text books, consisting of Commissioners Atwood, Wilson and Bowles, was appointed.

A committee consisting of Commissioners Valentine, Rager and Wilson was appointed to consider the present course of study of high school classes and to report to the board any change they might deem necessary.

A number of bills referred to the clerk at the last meeting were allowed.

The board adjourned.

Why so Downcast.

True, you are in a miserable condition—you are weak, pale and nervous. You cannot sleep at night, nor enjoy your waking hours; yet, why lose heart? Get at the druggist's a bottle of Burdock Blood Bitters. They will restore you to health and peace of mind.
